

CUSTOMER SUCCESS

Concorde Career College

Concorde Career Colleges specializes in healthcare education. The Colleges have been training medical professionals for nearly 50 years. Concorde Career College has 17 campuses in eight different states and continues to grow.

“ [WorkPlace] helps capture the true audit, approval process, and visibility. ”

- Rebecca Oxley, Purchasing Manager

CHALLENGES

- Manual process - spreadsheets, email, and paper
- Inefficient tracking of requisitions
- Excess spending

REQUIREMENTS

- Streamline purchase process
- Real-time product costs
- PunchOut capabilities

SOLUTION

Implementing Paramount WorkPlace Requisition utilizing PunchOut capabilities.

- Paramount WorkPlace provided a requisition solution with PunchOut capabilities to capture true audit, approval process, and visibility.

BENEFITS

- Accuracy
- Reduced spending
- Scalability
- Real time product cost views
- Streamlined procurement
- Increased purchase visibility
- Platform to enter requisitions
- PunchOut capabilities

PunchOut was the biggest component to achieve accuracy since the catalog stays current and up-to-date with new product features and pricing. If the product changes after the initial request was put in, the system will automatically update which avoids confusion, inaccuracies and reduces over spending.

Because of scalability, as Concorde Career Colleges continues to grow, they will be able to continue to use all the functions and customizations that were made in Paramount WorkPlace.
