

Peak Resorts

Peak Resorts owns and operates 14 ski resorts with nearly 2,000 acres of skiable terrain, primarily in the Northeast and Midwest. The majority of its properties are within easy driving distance from the major metropolitan markets of New York City, Boston, Philadelphia, Cleveland, and St. Louis. The company has seen steady growth — fueled by a passion for recreation, a commitment to service, and smart investments in technology and infrastructure.

“With Paramount WorkPlace, we have centralized purchasing, automated routing and approval workflows, and a high level of visibility into our entire purchasing and expense management cycles. We’ve got better control, we’re leveraging our buying power, and we’re keeping the processes moving efficiently.”

- Gary Rush, Senior VP of IT, Peak Resorts

CHALLENGES

- Lacked visibility into the requisition and procurement processes
- A traveling workforce lacked mobile tools
- Decentralized purchasing increased overhead
- Expense and requisition approval were delayed by traveling approvers

REQUIREMENTS

- Single solution for both expense management and requisition/purchasing
- Mobile capabilities
- Three-way invoice matching
- Cloud-based solution

SOLUTION

Paramount WorkPlace Spend Management solution

- Paramount WorkPlace delivers both the expense management and requisition and procurement capabilities Peak Resorts relies on to streamline and automate spend management.

BENEFITS

- Three-way invoice matching ensures accuracy and prevents duplication
- Staff can submit expense data via their mobile devices
- Expense reports and requisitions may be approved through mobile app
- Centralized purchasing lowers purchasing costs and provides improved budget controls
