

# Experience the Power of Seamless Out-of-the-Box Real-Time Integration with NetSuite

## SCALE YOUR BUSINESS WITH A PROCUREMENT SOLUTION FOR NETSUITE

### The Most Powerful Approval Rule Engine on the Market

Implement any corporate approval rule you can imagine with unlimited levels of approval, unlimited approval paths

- Independent workflows based on any transaction or line detail

### Effortless Blanket Purchase Orders and Vendor-Negotiated Terms Enforcement

Restrict and enforce by item, effective dates, specified periods. Automatically require approval when the contracted amounts are exceeded

- Vendor contract tracking enforces critical price and volume discounts and tracks vendor purchases over time

### Sophisticated Attendee Tracking

Comply with the Sunshine Act and Open Payment requirements for employee expenses

- Allocate each expense line to one or more Attendees by percentage or amount

### Intuitive Mobile App

Easy mobile requisition entry, catalog shopping, receipt capture, expense submission and approvals

### Robust B2B PunchOut Integration Capabilities

Introduce true B2B integration with your suppliers through the WorkPlace solution integrated seamlessly to NetSuite

- Real time access to negotiated supplier pricing and item availability

### Smart Invoice Capture

Advance your invoice processing with WorkPlace's powerful OCR technology that incorporates rich machine learning, capable of capturing data down to the line-level. Eliminate inefficiencies and reduce the time users spend on keying and correcting data

- Innovative OCR with AI / Business Learning
- Automated line level capture
- PO & Non-PO invoice capture
